

## ENVIRONMENTAL POLICY STATEMENT

Dynamic EMS wishes to be endorsed as caring for the environment and is committed to maintaining and continually improving its Environmental Management System that complies with BS EN 14001 : 2004

We have made ourselves aware of the consequential impacts our operation has on the environment in relation to the resources used throughout the Company and are committed to achieving Environmental best practice by:

- Complying as a minimum with all relevant Environmental legislation.
- Regular monitoring of Energy Consumption [Gas and Electricity].
- Continuous review of our manufacturing processes to ensure best use of resources and minimisation of waste.
- Responsible waste segregation and disposal to maximise recycling.
- Prevention of Pollution.
- Set and Review of Targets for:
  - Energy Consumption
  - Solid Waste Disposal
  - Waste Water
- Communicate this policy to our suppliers (focus on packaging).
- Regular review of our own packaging practices.
- Annual Senior Management review of the:
  - Environmental Management System
  - Objectives / Targets
  - Achievements
